Description	<p>The principal addressed the gathering and welcomed the guest. The HOD introduced about the guest and handled over to the speaker.</p> <p>The speaker started with the While becoming a successful entrepreneur is natural for some, others require certain essential skills to start and lead a business to success. These skills determine your entrepreneurial success. Successful entrepreneurs have mastery over both hard and soft skills. Hard skills like accounting, marketing and financial planning are critical for running and managing a business and soft skills like communication, problem-solving and decision making help you scale up your business. Mastery of entrepreneur skills requires practice and a dedicated learning plan.</p> <p>Finally the HOD delivered the vote of thanks and the guest was felicitated with a momentum.</p>

Description	<p>The principal addressed the gathering and welcomed the guest. The HOD introduced about the guest and handled over to the speaker.</p> <p>The speaker stated that the Entrepreneurship is the process of running a business using a new idea or in a different way, which ultimately helps the buyer or the customer. The new ideas in a business can be in the form of a unique product or service. A different way of doing business makes an entrepreneur different. A traditional business person runs his venture like most others. Whereas an entrepreneur uses unique ways of doing business — be it reaching out to the customers through marketing and advertising, new ideas or new ways to meet customer needs or running the operations in a more efficient way</p> <p>Finally the HOD delivered the vote of thanks and the guest was felicitated with a momentum.</p>

Description	<p>The principal addressed the gathering and welcomed the guest. The hod introduced about the guest and handled over to the speaker.</p> <p>The speaker stated that setting up a manufacturing unit is almost like building your house, and if you are a first generation entrepreneur, it is going to be a truly challenging and equally intense learning process. Manufacturing processes come in all shapes and sizes and require a substantial commitment. Often, manufacturing calls for notable and upfront financial investment for complex equipment, raw material and manpower with special skills. You must brace to deal with a broad array of responsibilities concurrent with the multiple steps of a manufacturing process.</p> <p>Finally the hod delivered the vote of thanks and the guest was felicitated with a momentum.</p>
